## experience

### work

2015 **Parlevel Systems** San Antonio, Texas  
*Summer Intern*  
Assisted in the development of analytical software for vending machine operators in North America. Also developed the company's foray into micromarkets. Created web tools to allow the company itself to run more efficiently.

2014 **Umer936** San Antonio, Texas  
*Website Builder*  
Built professional websites for businesses and clients by employing my knowledge of web development.

## certifications

2013 **Certification of Graduate-Level Course** Royal Holloway University of London  
Graduated an online course titled "Malicious Software and its Underground Economy: Two Sides to Every Story." The course was about traditional and mobile security threats and the underground ecosystem that drives the illegal, yet profitable, business.

## awards

2013 **Erasmus Award** Saint Andrews Episcopal School  
Awarded to the student that is most driven and most excited about learning.

## robotics

2015 **FIRST Robotics Competition** Brandeis High School  
Type about FRC

2015 **FIRST Tech Challenge** TMI - The Episcopal School of Texas  
Type about FTC

## speech and debate

|           |                                                                                                                                                      |                                 |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|
